Summary of analysis and conclusions regarding quality of execution obtained

- (a) Lodbrok will take all reasonable steps to obtain the best possible result for its Funds, when executing orders with an execution venue, taking into account the “execution factors” specified by MiFID, being price, costs, speed, likelihood of execution and settlement, size, nature, or any other consideration relevant to the order. Lodbrok’s order execution policy provides for a significant degree of flexibility in deciding which execution factors are to be taken into account in respect of a particular order.

Lodbrok generally considers the ranking of the execution factors to be in this order:

¹ For the purposes of this report, ‘client orders’ includes discretionary portfolio management decisions made by Lodbrok on behalf of its clients.

² For the purposes of this report, ‘execution venue’ means trading venue, systematic internaliser, market maker, liquidity provider and/or third country entity performing a similar function.

- Likelihood of execution;
 - Market liquidity;
 - Price and related execution costs;
 - Speed of execution;
 - Size of the order; and
 - Settlement efficiency.
- (b) Throughout 2018 Lodbrok had no close links or conflict of interests to report with regards execution of transactions.
- (c) No payments, discounts or rebates were received from any of the execution venues or brokers. There were no receipts of any benefits received in relation to execution venues. In compliance with its obligations under MiFID II, Lodbrok has put in place arrangements to pay for research and any non-execution related services received from brokers.
- (d) We maintain a list of execution venues as part of our Best Execution Policy. During 2018, Lodbrok added a number of execution venues to its Best Execution Policy. Lodbrok seeks to add execution venues opportunistically, taking account of a variety of factors but predominantly availability of liquidity in relevant instruments (and therefore likelihood of execution), pricing and transparency of information regarding the relevant instruments.
- (e) Lodbrok classifies each of its clients as a professional client. Accordingly, Lodbrok's order execution does not differ as between different classes of client.
- (f) Lodbrok does not execute orders on behalf of retail clients.
- (g) As part of the review of the execution quality obtained by Lodbrok when executing client orders and in determining the list of execution venues in its Best Execution Policy, Lodbrok may, where it deems appropriate, have regard to publicly available data on the quality of execution obtained by execution venues and brokers; however, Lodbrok will assess a broad range of factors when determining whether to make changes to the list of execution venues and brokers in its Best Execution Policy.
- (h) During 2018, Lodbrok did not contract with any consolidated tape provider (as none is yet available) but is able to access market pricing data from a variety of third party sources.
